WE CAN HELP 'EM.

Europe on the Verge of Starvation--No Doubt About It.

EGAN UTTERLY INCOMPETENT,

And Mr. Blaine's Shrewdest Diplomacy Will Be Needed to Put Things Aright.

The Washington Real Estate Ring and the Rock Creek Park--A Scheme to Turn it Into Villa Sites--Value of One Man's Holdings.

Europe on the Verge of Starvation. Special to the Gazette.

WASHINGTON, Sept. 5.—There is no longer any doubt as to the fact that Europe is on the verge of starvation. The Hungarian government has made a careful statement showing that the yield of wheat is from 170,000,000 to 200,000,000 bushels below the average and of rye from 350,000,000 to 400,000,000 bushels. Rye is one of the leading bread products of Europe and is used much more extensively in Germany, Austria, Hungary and Russia than wheat. Russia, which usually exports a large amount of rye, has forbidden any further export, and it is probable that it will forbid the export of its surplus of 45,000,000 bushels of wheat to replace in part the deficit in rye. Austria requires 100,000,000 bushels of grain, Germany requires 150,000,000 bushels, and France requires 130,000,000 bushels. While England never wants less than 140,000,000 bushels, and the accounts from the crops in that country indicate that the demand this year will be much larger. It is estimated that the world at the close of the year in the United States has been superabundant. The latest reports indicate that we will be able to supply for foreign consumption from 100,000,000 to 300,000,000 bushels of wheat, and we can furnish any desired quantity of corn. The United States stands between Europe and starvation. Of course this will be to the benefit of the farmers especially, and of all the country generally, because the prices will be necessarily higher, and an influx of probably not less than \$400,000,000 in gold will be the consequence of the short crops in Europe.

Why Was Pat Egan Muzz?

The Chilean war is ended. The congressionalists have taken possession of the country and are now formally established in power. Mr. Pat Egan, minister by the grace of his administration, and his desire to secure Irish votes, has shown himself utterly incompetent if not worse. It is said that he had received valuable concessions from Balboa, and because of this he favored Balboa. All this was possible. It is a fact beyond any controversy that the New York Herald on the 25th of August published a full account of the defeat of Balboa's army and the complete success of the Congressionalists, and up to the 1st of September not a word had been received at the state department from Mr. Egan. It will require the shrewdest diplomacy to put the government on as good a basis with the new Chilean government as it has formerly occupied.

Thinks Blaine Ought to "Hands Off."

Steven B. Elkins is the latest envoy sent from Cape May to Bar Harbor to try and patch up the quarrel between the president and the secretary. Connected with him was Mr. Kereus of Missouri, another friend of Blaine's and also of the president, since the latter is his dispenser of political favors in Missouri. It is perfectly evident to every one that Harrison is very angry at the continued reports brought to him every day that Blaine is the choice of the Republican party for the next November. He thinks that his secretary ought to step out of the way. It is not, however, probable that Blaine will be so easily disposed of. He has been in the office since he was in 1888, and Mr. Harrison might not be the beneficiary even if Blaine were to retire.

The Washington Real Estate Ring.

Amidst the enormous steals that were put through the billion-dollar congress, was that of the Rock Creek Park. The Washington real estate ring, in which quite a number of distinguished Republican members of congress were interested. This was called the Rock Creek Park. The facts are, that the real estate men have purchased, north of the city, large tracts of ground, which they propose to turn into villa sites for the wealthy residents of the capital. The suggestion in the Massachusetts avenue extended and graded into their property. And then they concluded it would be a nice thing to have a fine park on Rock Creek, which flows between the city and their purchases. A commission was appointed to locate this park, and lately another commission has been taking the value of the property included in the prescribed limits. One man who owns seventy acres and a half, which was valued at \$100 an acre, or \$11,445, had nearly thirty-two acres included in the park, and this he valued to the government at \$200 an acre, a total of \$8,000. This is nearly six times the estimated value of his whole tract, of which he retains considerably over one-half, and that would be increased in value 50 or 60 per cent. The Democratic house can do no better thing than to stop this enormous steal.
